

Quality Manager

January 2020

About Elix Systems SA

Elix Systems was created in 2020 by an experienced engineering team who shared a passion for autonomous flying vehicles. The seasoned engineering team leverages their solid background in video processing, security and human machine interface to develop electronics systems for highly demanding industries such as avionics and medical.

Elix Systems is an international company operating mainly in Europe. Customers are in Switzerland and western Europe. The key customer facing functions are based in Lausanne, Switzerland: this includes sales, program management, architecture and senior engineers. Elix Systems relies on scaling partners to ramp-up rapidly new projects, in particular with our affiliate and partners in Serbia.

In order to support its growth in the avionics sector, Elix Systems wishes to strengthen its quality and methodology with this position based in Lausanne.

Your Mission and Responsibilities

Manage Elix Systems SA quality management:

- Create the Quality Plan, instantiate it for Elix organization / activity, implement it among the development teams and put in place the corresponding tools
- Act as Quality manager on development project, enforce methodology is understood and implemented on the project
- Lead preparation and management of customer audits
- Lead preparation and management of ISO9001 certification Audit – Target H2 2021

This position is based in Lausanne, Switzerland; alternative location can be discussed.

This position is open at 50% for a duration of 10 months.

Your profile

- Quality Manager with at least 5 years experience in managing quality for development/engineering organization
- Good knowledge of ISO9001, experience in preparation and certification
- Good knowledge of Avionics development process and ISO9100 is a plus
- Operational / hands-on profile with experience working with medium-size organizations
- Team player, you enjoy working in small team and in a dynamic environment
- You can work in international and multi-cultural environment
- Fluent in French and English
